

# NSF S-STEM Scholarship Program

The NSF S-STEM Scholarship Program at the University of North Texas (UNT) is a competitive scholarship that supports academically talented and low-income undergraduate students in the Department of Computer Science and Engineering (CSE) at UNT. The scholarship is renewable.

## Eligibility Criteria

- U.S. Citizen, nationals of the U.S., permanent residence, and aliens admitted as refugees
- An undergraduate student in the CSE programs at UNT
- GPA of 3.0 or higher
- Demonstrated financial need (filed a FAFSA application and Pell-eligible)

## Application Process

- Email the completed form and a copy of the most recent transcript to CSE.SSTEM@unt.edu
- The selected awardees will be notified via email.

## Application Deadline

Applications are due on **April 5th** of each year. Evaluation of applications will be done by the program committee.

By submitting this application for the NSF S-STEM Scholarship, I agree to

- Enroll in courses and pursue a BS degree in CSE at UNT
- Maintain a cumulative GPA of 3.0 or higher
- Participate in the activities of the S-STEM scholarship program
- Participant in surveys and interviews of this program (personal information will not be shared outside the program team)

I understand that my answers are subject to verification, and I give permission to the Office of Admissions to share my information with the NSF S-STEM Scholarship project team at UNT to assist with my application. I understand that the submission of false information is grounds for rejection and/or withdrawal of any offer extended.

I gave permission to the Financial Aid & Scholarships Office to release my information, including data from the Free Application for Federal Student Aid (FAFSA), regarding my eligibility for financial need-based scholarships to the NSF S-STEM Scholarship project team at UNT.

I give permission to the NSF S-STEM Scholarship project team at UNT to include my information, academic progress, and participation in NSF S-STEM activities as part of the reporting requirements to the National Science Foundation.

I understand that the reporting is done in the aggregate, and personally identifiable information (e.g., name and ID) will not be in any of the NSF S-STEM reports.
